Jamestown Prediction Activity

1.) Each group has 9 pictures.

2.) These 9 pictures go in order to tell the story of the Jamestown colony.

3.) Arrange the pictures so they are in the correct order, from earliest to latest.

Now...the story of Jamestown!

Jamestown

1.) In **1607**, the Virginia Company colonizes Jamestown on a swampy area along the James River

2.) Jamestown is built in a swampy, coastal area for easy transportation

3.) Jamestown is founded to make profits mining gold. None is found, tobacco is the main crop

4.) Scarce food forced colonists to create a trade alliance with the Powhatan tribe

5.) Not getting all the food needed to survive from the Powhatan, colonists demanded food from neighboring tribes.

6.) Natives responded to colonists kidnappings and murder

7.) The Powhatan, worried the colonists would do something to hurt them, decided to "starve them out."

8.) Colonists died from drinking diseased water, starvation, and <u>cannibalism</u>

9.) Only 60 out of 500 colonists survived the "starving time."

10.) Strong leadership, <u>martial law</u>, and aggressive takeovers of native land save Jamestown from destruction.

Jamestown Fort Activity
